Milwaukee, WI · Open to Chicago and remote · U.S. work authorized, no sponsorship

I design digital products that make everyday tasks harder to get wrong.

UX/UI designer trained in Communication Design (BFA) and UX (UT Austin). I take work from research to tested Figma prototypes and build accessible design systems. I care how it looks as much as how it works.

Selected work

BMO · Solo UX/UI Designer · Unsolicited redesign · Banking app — 2026

- Logged 98 findings in the live app's transfer and bill-pay flows, including a WCAG failure.
- Rebuilt both flows around one record and five status words. Checking a transfer: 5 taps to 1.
- Tested with 15 people, some of them BMO customers. All 15 could tell if a bill payment worked.
- Used Claude to turn my Figma file into a working build, then checked every screen against the design.

Furcast · Lead UX/UI Designer · UT Austin capstone · Pet health web app — 2026

- Led design on a team of two: design system, onboarding, Daily Log and AI Health Insights.
- Tested with 5 pet owners. All 5 logged a day in under 2 minutes.
- Designed the AI to flag patterns, never diagnose. 2 of 5 got stuck on it, so I added a sheet explaining the score.

ParkChicago · Solo UX/UI Designer · Unsolicited redesign · Parking app — 2026

- Asked 12 drivers about tickets, merged two city apps and prototyped a lock screen countdown in Figma Make.
- Tested with 5 drivers. All 5 finished a session and 4 found the countdown on their own.

Experience

Freelance Designer, Brand + UX · Independent clients — 2020 – Present

- Planned the site map, content and navigation for a stone company's new website, then wireframed every page.
- Leading the same company's rebrand: logo, colors, type, cards and a contractor brochure.
- Brand identity, print design and photography for small businesses since 2020.

Project Coordinator and Design Intern · Apostrophys Group, Bangkok — May – Sep 2016

- Coordinated 4 client projects, including a projection-mapping café launch with Epson and a Thai Film Archive exhibition.

Education

Post Graduate Program in UX Design — 2026
The University of Texas at Austin

BFA, Communication Design — 2017
Srinakharinwirot University, Bangkok

Other experience

Newborn Care Specialist · Private families · 2018 – 2026

Bartender and Server · Jazz Showcase · 2021 – 2026

Volunteer Art Teacher · Public libraries · 2018 – 2024

Pharmacy and Retail · Family business · 2010 – 2014

Community Volunteer · Thailand · Helped build libraries and parks in 25 provinces · 2010 – 2015

Skills

Design UX research · usability testing · UX audits · user flows · information architecture · wireframing · prototyping · UI design · visual design · design systems · accessibility (WCAG) · branding

AI Designing AI features people can trust · explaining AI in plain language · prototyping with Figma Make and Claude

Tools Figma · FigJam · Figma Make · Generative AI · Photoshop · Illustrator
